October 21, 2019

To the Board of Trustees and Management
Village of Rossville
Rossville, Illinois

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the Village of Rossville (the Village) for the year ended April 30, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information to you in our letter dated June 12, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings:

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Village are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ending April 30, 2019. We noted no transactions entered into by the Village during the year for which there was a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of depreciation expense is based on management's analysis of the estimated useful lives of capital assets. We evaluated the key factors and assumptions used to develop this estimate and determined that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 21, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Village's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Village's auditor. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the Illinois Municipal Retirement Fund – multiyear schedule of changes in net pension liability and related ratios, Illinois Municipal Retirement Fund – multiyear schedule of contributions, and budgetary comparison information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information that includes the schedule of property tax levies, rates, extensions, and collections, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and

the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Board of Trustees and management of the Village and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Feller & Kuester CPAs LLP

To the Board of Trustees and Management
Village of Rossville
Rossville, Illinois

In planning and performing our audit of the financial statements of the governmental activities, business-type activities, and each major fund of the Village of Rossville (the Village) as of and for the year ended April 30, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the Village's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in internal control to be material weaknesses:

Segregation of Duties

The Village has an absence of appropriate segregation of duties. In order to overcome this lack of segregation of duties, it would be necessary to hire several additional employees and to incur the related expenses. It is an axiom of internal control that the cost of any system of internal control should not exceed the benefits derived there from. The Village's management has determined that, in its judgment, the risk of loss from the lack of segregation of duties does not warrant the expense necessary for a village of its size to significantly reduce that risk. As a result, some of the aspects of internal accounting control which rely upon an adequate segregation of duties are absent. This situation dictates that the Village's Trustees remain involved in the financial affairs of the Village to provide oversight and independent review functions. This situation is not unusual in a village this size; however, we are required under our professional responsibilities to call this situation to your attention.

Financial Statement Preparation

Management has chosen to rely on the accounting skills, knowledge, and experience of its auditors to apply adequate procedures to the financial statements and related notes to ensure they are in material compliance with accounting principles generally accepted in the United States of America. Consequently, because management has chosen to rely on its auditors in this matter, management has placed itself in a position where it is not, either in fact or appearance, able to make an adequately informed judgment on the financial statements and related notes we drafted to prevent or detect material misstatements. However, as your auditor, while we possess the expertise to provide the preparation services, we should not be part of your internal control as this is the responsibility of management and those charged with governance. This situation is not unusual in a village this size; however, we are required under our professional responsibilities to call this situation to your attention.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We did not identify any deficiencies in internal control that we consider to be a significant deficiency.

This communication is intended solely for the information and use of the Board of Trustees and management of the Village and is not intended to be, and should not be, used by anyone other than these specified parties.

To the Board of Trustees and Management
Village of Rossville
Rossville, Illinois

In planning and performing our audit of the financial statements of the governmental activities, business-type activities, and each major fund of the Village of Rossville (the Village) as of and for the year ended April 30, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the Village's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion of the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The items stated below summarize our comments and suggestions regarding those matters. A separate letter dated October 21, 2019 contains our communication of significant deficiencies or material weaknesses in the Village's internal control. This letter does not affect our report dated October 21, 2019 on the financial statements of the Village.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Village personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations. Our comments are summarized as follows:

Trustees Oversight

It is important for the Trustees to continue to review the reports and paid bills at their monthly meetings to help mitigate the lack of segregation of duties. We as auditors have to rely on this review.

Audit Fee for Next Year

It is always our goal to keep our audit fee low. We project the fee to audit the financial statements for the year ended April 30, 2020 to be \$6,600.

This report is intended solely for the information and use of the Trustees and management of the Village and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully submitted,

Feller & Kuester CPAs LLP

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Village of Rossville
Rossville, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Village of Rossville, Illinois (the Village), as of and for the year ended April 30, 2019, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of significant accounting estimates made, by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Village as of April 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Illinois Municipal Retirement Fund – multiyear schedule of changes in net pension liability and related ratios on page 28, Illinois Municipal Retirement Fund – multiyear schedule of contributions on page 29, and budgetary comparison information on pages 31 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village’s basic financial statements. Supplementary information contained in the schedule of property tax levies, rates, extensions, and collections on page 35 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of property tax levies, rates, extensions, and collections is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of property tax levies, rates, extensions, and collections is fairly stated in all material respects, in relation to the financial statements as a whole.

Management has omitted the management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be

an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

NOTE 1 - Summary of Significant Accounting Policies

The financial statements of the Village of Rossville (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for governmental accounting and financial reporting.

Financial Reporting Entity

This report includes all of the funds of the Village. The reporting entity for the Village consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the Village's ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit or impose a financial burden on the Village. Regardless of whether the component unit has a board or how its board is appointed, the Village is financially accountable if the component unit is fiscally dependent on the Village and can possibly provide a financial benefit or impose a financial burden on the Village. Pursuant to these criteria, no component units were identified for inclusion in the accompanying financial statements.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, licenses, fees, permits, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the Village are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. The Village presently has no fiduciary funds. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

- Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or proprietary fund are at least ten percent of the corresponding total for all funds of that category or type.
- Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund or proprietary fund are at least five percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund – The General Fund is the primary operating fund of the Village and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds – Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The reporting entity included the following special revenue funds, which are major funds:

<u>Fund</u>	<u>Brief Description</u>
Motor Fuel Tax Fund	Accounts for motor fuel tax provided by the State of Illinois and expenditures paid for road repair and replacement.
TIF Fund	Accounts for property taxes received from the incremental increase in the assessed value of real property in the Village’s TIF District and expenditures paid for redevelopment projects in the TIF District and administration of the TIF District.

Proprietary Funds

Enterprise Fund – Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprise funds that are reported as major funds:

<u>Fund</u>	<u>Brief Description</u>
Gas Fund	Accounts for revenues received and expenses paid for operating the gas system.
Water Fund	Accounts for revenues received and expenses paid for operating the water system.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Sewer Fund	Accounts for revenues received and expenses paid for operating the sanitary sewer system.
Storm Water Fund	Accounts for revenues received and expenses paid for operating the storm water system.

The Motor Fuel Tax Fund and Storm Water Fund do not meet the requirements of a major fund; however, management has elected to include these funds as major funds of the reporting entity.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Government-Wide Financial Statements and Enterprise Fund Financial Statements

Governmental activities and business-type activities in the government-wide financial statements and the enterprise funds financial statements are presented on the accrual basis of accounting. On this basis, revenues, expenses, gains, losses, assets, liabilities, and deferred inflows and outflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which the taxes are levied. Grants are recognized as revenue when eligibility requirements are met, such as allowable costs having been incurred.

Governmental Fund Financial Statements

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recognized when it becomes both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers receipts within 60 days of year end to be available. Expenditures generally are recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when payment is due. Various state and local taxes, grants, and other revenue items are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period if applicable to the fiscal year and collected within 60 days of fiscal year end.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and cash held by a fiscal agent. For purposes of the proprietary funds’ statements of cash flow, cash and cash

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

equivalents include cash on hand, demand deposits, and cash held by a fiscal agent as well as short-term investments with original maturities at issuance of three months or less.

Investments

Investments classified in these statements consist entirely of certificates of deposit acquired with cash whose original maturity term exceeds three months. Investments are carried at costs, which approximates fair value.

Restricted Assets

Restricted assets consist of cash and cash equivalents which are being held on behalf of a third party or which use has been restricted by the Board of Trustees.

Receivables

Receivables are reported at the estimated net realizable amounts from third-party payers. Receivables are stated at the amount management expects to collect on outstanding balances. Based on management's review of receivable balances at year end, and recent payment histories of third-party payers, an allowance of \$6,000 has been recorded in the Gas Fund against gas receivables, an allowance of \$1,000 has been recorded in the Water Fund against water receivables, an allowance of \$1,000 has been recorded in the Sewer Fund against sewer receivables, and an allowance of \$1,000 has been recorded in the Storm Water Fund against storm water receivables. No other allowance for uncollectible receivables has been recorded at year end as management expects to collect all but an immaterial amount of other reported receivables.

Prepaid Expenditures/Expenses

Prepaid expenditures/expenses such as for insurance or service contracts are deferred and expended/expensed over the term when the services are received.

Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

Capital assets, which include property, plant, equipment, and infrastructure assets, (e.g. roads, bridges, sidewalks, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. A capitalization threshold of \$5,000 is used to report equipment capital assets and \$50,000 for buildings, improvements, and infrastructure capital assets. Such assets are recorded at

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend lives are not capitalized. Capital assets in the proprietary funds are capitalized in the fund in which the capital assets are utilized.

Depreciation is calculated on all capital assets (other than land and assets that appreciate in value) using the straight-line method with the following estimated useful lives:

Buildings	20-50 years
Equipment	3-22 years
Improvements	10-50 years
Infrastructure	10-30 years

Fund Financial Statements

In the fund financial statements, capital assets arising from cash transactions acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for the same as in the government-wide statements.

Deferred Revenue

Deferred revenue consists of resources that have been received but not yet earned.

Long-Term Debt

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts as well as issuance costs are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Deferred Outflows / Inflows of Resources

Deferred outflows and inflows related to pensions represent the changes in total pension liability related to the difference in actual and expected experience or changes in assumptions regarding future events recognized over the expected remaining service life of all employees and differences in projected and actual earnings over the measurement period recognized over a five-year period.

Deferred inflows of resources related to unavailable revenues from property and other taxes represent an acquisition of net position that applies to future period(s) and will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Equity Classification

Government-Wide Statements

In the government-wide statements, equity is classified as net position and displayed in three components. When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first and then unrestricted.

- Net Investment in Capital Assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other debt that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Position - consists of net position with constraints placed on their use either by external groups, by laws of other higher authority governments, or by constitutional provisions.
- Unrestricted Net Position - consists of all other net position that does not meet the definition of restricted or net investment in capital assets.

Fund Financial Statements

In the governmental fund statements, fund equity is classified as fund balance and displayed in five components in accordance with GASB Statement Number 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The five components of fund balance are:

- 1) Nonspendable - consists of fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints require them to be maintained intact. At April 30, 2019, the Village had \$9,016 nonspendable for prepaid expenses.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

- 2) Restricted - consists of fund balances with constraints placed on their use either by external groups, by laws of higher authority governments or by constitutional provisions, or enabling legislation. At April 30, 2019, the Village had \$118,111 restricted for unspent motor fuel tax. This amount can only be spent on street and alley improvements under state laws and procedures. At April 30, 2019, the Village had \$286,314 restricted for economic development.
- 3) Committed - consists of fund balance amounts that are constrained for specific purposes that are internally imposed by formal action of the highest level of decision-making authority, the Village Trustees. These amounts are committed thru a resolution approved by the Village Trustees prior to year end (actual amounts are determined after year end). Any changes to the constraints imposed require amendment by the same type of Village Trustee resolution. At April 30, 2019, the Village had \$9,840 committed for a purchase of police vehicles. This amount can only be spent on police vehicles per Board of Trustees' Resolution.
- 4) Assigned - consists of fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned by financial management or official action of the Village Trustees and also includes all amounts in governmental funds, other than the general fund, that are not restricted or committed. Assignments may take place after the end of the reporting period. At April 30, 2019, the Village had \$14,302 assigned for economic development.
- 5) Unassigned - consists of residual positive fund balance within the general fund which has not been classified within the other above categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes. At April 30, 2019, the Village had \$302,824 as unassigned in the general fund.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first unless there are legal documents or contracts that prohibit this (ex. grant agreements). Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

The Village does not maintain any rainy-day funds (amounts set aside for use in emergency situations or when a budgetary imbalance arises). The Village also does not utilize encumbrance accounting. Appropriations not spent at year end lapse and may be acted upon as a supplemental appropriation, if required.

Program Revenues

In the Statement of Activities, revenues that are derived directly from each activity or from parties outside the Village's taxpayers are reported as program revenues. Program revenues include the following:

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Charges for Services:

Governmental Activities

Amounts remitted to the Village by entities and individuals making use of legal privileges issued by the Village or by violators of Village ordinances.

Business-Type Activities

Fees paid by the public for gas, water, sewer, and storm water services.

Operating Grants and Contributions:

Grants and contributions used for material purchases and various Village programs.

Capital Grants and Contributions:

Grants and contributions used for the acquisition of capital assets.

All other governmental revenues are reported as general. All taxes are classified as general revenue even if restricted for a specific purpose.

Operating and Non-Operating Revenues and Expenses of the Proprietary Funds

Operating revenues and expenses for the proprietary funds are those that result from providing services. It also includes all revenues and expenses not related to capital and related financing, non-capital financing, or investing activities.

Internal and Interfund Balances and Activities

In the process of aggregating the financial information for the government-wide Statement of Net Position and Statement of Activities, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

Fund Financial Statements

Interfund activity, if any, within and among the governmental fund categories is reported as follows in the fund financial statements:

- Interfund Loans - Amounts provided with a requirement for repayment are reported as interfund receivables and payables.
- Interfund Services - Sales or purchases of goods and services between funds are reported as revenues and expenditures/expenses.
- Interfund Reimbursements - Repayments from funds responsible for certain expenditures/expenses to the funds that initially paid for them are not reported as reimbursements but as adjustments to expenditures/expenses in the respective funds.
- Interfund Transfers - Flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Government-Wide Financial Statements

Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements as follows:

- Internal Balances - Amounts reported in the fund financial statements as interfund receivables and payables are eliminated in the governmental and business-type columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities which are reported as Internal Balances.
- Internal Activities - Amounts reported as interfund transfers in the fund financial statements are eliminated in the government-wide Statement of Activities except for the net amount of transfers between governmental and business-type activities, which are reported as Transfers-Internal Activities. The effects of interfund services between funds, if any, are not eliminated in the Statement of Activities.

Unpaid Vacation and Sick Pay

Full-time, permanent employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the Village. Sick leave accrued to full-time, permanent employees to specified maximums. Generally, after one year of service, employees are entitled to a percentage of their sick leave balance and all accrued vacation leave upon termination.

The estimated current portion of the liability for vested vacation and sick benefits attributable to the Village's governmental funds are recorded as an expenditure and liability in the respective funds. The amounts attributable to proprietary funds are charged to an expense and a corresponding liability in the applicable fund.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

Subsequent Events

The Village has evaluated subsequent events through October 21, 2019, the date on which the financial statements were available to be issued. There were no subsequent events requiring recognition or disclosure in the financial statements.

NOTE 2 – Legal Budget

Legal budgets are prepared in the form of an appropriations ordinance for the Village funds using the same accounting basis and practices as are used to account for and prepare financial reports. Unexpected appropriations lapse at the end of each fiscal year. Once a budget is

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

approved, it can be amended at the function and fund level by approval of a majority of the members of the Village's Board of Trustees after a public notice and hearing. Appropriations transfers between budget line items may be presented to the Board at their regular meetings. Each transfer must have Board approval. Such transfers are made before the fact and are reflected in the official minutes of the Board. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is the fund level. There were no transfers made after fiscal year-end, as dictated by law. A comparison of budget to actual expenditures is provided for each major governmental fund in the required supplementary information.

NOTE 3 – Property Taxes

Property taxes are levied and attach as an enforceable lien on January 1st on property values assessed as of the same date. Property tax is levied each year on all taxable real property located in the Village on or before the last Tuesday in December (by passage of the Tax Levy Ordinance). The 2017 tax levy was adopted by the Board on November 21, 2017. The 2018 tax levy was adopted by the Board on November 19, 2018. The first installment is due 30 days after the bills are mailed by the County and the second installment is due in September. Tax bills are typically mailed in May or June. The District receives significant distributions of tax receipts approximately one month after these due dates.

The property tax revenues recorded in the current-year financial statements represent the collections of the 2017 property tax levy. The 2018 property tax levy has been recorded as a receivable and a deferred inflow since this amount is normally not collected within a time period to be available and is intended to finance the operations for the year ended April 30, 2020. No provision has been made for delinquent property taxes since in past years the amount has been insignificant.

NOTE 4 – Cash and Cash Equivalents

The Village's cash deposits consist of checking, certificate of deposits, and money markets. These deposits are stated at cost. The Village is authorized to invest excess funds in instruments outlined under Chapter 30, Section 235 of the Illinois Compiled Statutes. Such instructions include obligations of the U.S. Treasury, agencies, instrumentalities, commercial paper noted within the three highest classifications by at least two standard rating services, obligations of state and their political subdivision, saving accounts, credit union shares, and the Illinois Funds or such other officially recognized funds. The Village does not have a separate investment policy.

Custodial Credit Risk – Bank Deposit

Custodial credit risk is the risk that in the event of a bank failure, the Village's deposits, including amounts in checking, savings, certificate of deposits, and money market accounts may not be returned. At April 30, 2019, the Village had a bank balance of \$2,811,359, which reconciled to a book balance of \$2,790,886, exposed to custodial credit risk. The table presented below is designed to disclose the level of custodial credit risk assumed by the Village based upon

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

how its deposits were insured or secured with collateral at April 30, 2019. The categories of custodial credit risk are defined as follows:

Category 1 – Insured by Federal Deposit Insurance Corporation (FDIC) or collateralized with securities held by the Village or by its agent in its name.

Category 2 – Uninsured but collateralized with securities held by the pledging financial institution's trust department or agent in the Village's name.

Category 3 – Uninsured and uncollateralized; or collateralized with securities held by the pledging financial institution or by its trust department or agent but not in the Village's name; or properly collateralized with no written and approved collateral agreement.

Type of Deposit	Total Bank Balance	Custody Credit Risk Category		
		1	2	3
<i>Insured Deposits</i>	\$ 500,000	\$ 500,000	\$ -	\$ -
<i>Uninsured Deposits</i>				
Collateralized	2,311,359	-	2,311,359	-

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

NOTE 7 – Pension Plans

Illinois Municipal Retirement Fund

Plan Description: The Village’s defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village’s plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF’s pension benefits is provided in the “Benefits Provided” section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan’s fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided: IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff’s Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1st every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1st every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Employees Covered by Benefit Terms: As of December 31, 2018, the following employees were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	9
Inactive Plan Members Entitled to but not yet Receiving Benefits	5
Active Plan Members	9
Total	23

Contributions: As set by statute, the Village’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village’s annual contribution rate for calendar years 2018 and 2019 was 10.84% and 8.83%, respectively. For calendar year 2018, the Village contributed \$32,517 to the plan. For the fiscal year ended April 30, 2019, the Village contributed \$32,738 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability: The Village’s net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%.
- Salary Increases were expected to be 3.39% to 14.25%.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- The IMRF-specific rates for Mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For Disabled Retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2018:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37%	7.15%
International Equity	18%	7.25%
Fixed Income	28%	3.75%
Real Estate	9%	6.25%
Alternative Investments	7%	3.20% - 8.50%
Cash Equivalents	1%	2.50%
Total	<u>100%</u>	

Single Discount Rate: A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.71%, and the resulting single discount rate is 7.25%.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

VILLAGE OF ROSSVILLE

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions: For the year ended April 30, 2019, the Village recognized pension expense of \$32,371. At April 30, 2019, the Village reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflows of Resources
Difference Between Expected and Actual Experience	\$ 31,452	\$ 4,036
Changes of Assumptions	29,595	15,108
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	137,840	60,447
Total Deferred Amounts to be Recognized in Pension Expense in Future Periods	198,887	79,591
Contributions Subsequent to the Measurement Date	9,820	-
Total Deferred Amounts Related to Pensions	<u>\$ 208,707</u>	<u>\$ 79,591</u>

VILLAGE OF ROSSVILLE
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2019

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

<u>Year Ending December 31</u>	<u>Net Deferred Outflow of Resources</u>
2019	\$ 38,719
2020	30,673
2021	19,320
2022	30,584
Total	<u>\$ 119,296</u>

NOTE 8 – Risk Management

Significant losses are covered by commercial insurance for property, liability, and workers compensation. During the year ended April 30, 2019, there were no significant reductions in coverage. Also, there have been no settlement amounts that have exceeded insurance coverage in the past three years.

NOTE 9 – Legal Debt Margin

The Village's legal debt margin is 8.625% of the most recent available equalized assessed valuation (EAV) of the Village per 65 ILCS 5/8-5-1.

2018 EAV	\$ 6,959,027
Debt Legal (%)	8.625%
Debt Margin	<u>600,216</u>
Current Debt	-
Remaining Debt Margin	<u>\$ 600,216</u>

NOTE 10 – Restricted Property Tax Activity

The Village had the following restricted property tax activity in the general fund during the year ended April 30, 2019:

	<u>Restricted Purpose</u>
	<u>Road & Bridge</u>
Restricted Balance at April 30, 2018	\$ -
Property Taxes Received	4,665
Expenditures Incurred	(4,665)

ILLINOIS MUNICIPAL RETIREMENT FUND
NOTES TO SCHEDULES**

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2018 Contribution Rates:

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll; Closed
Remaining Amortization Period	25-Year Closed Period
Asset Valuation Method	5-Year Smoothed Market; 20% Corridor
Wage Growth	3.50%
Price Inflation	2.75%
Salary Increases	3.75% to 14.50% including inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011 - 2013.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes There were no benefits changes during the year.

* Based on Valuation Assumptions used in the December 31, 2016 actuarial valuation.

The notes to budgetary comparison schedules are an integral part of this statement.

VILLAGE OF ROSSVILLE
NOTES TO BUDGETARY COMPARISON SCHEDULES
APRIL 30, 2019

BUDGET LAW

Municipal Budget Law. In accordance with those provisions, the following process is used to adopt the annual budget:

- a. Prior to the end of the first quarter of each fiscal year, a board designated person or persons designated by the board submits to the board a proposed operating budget for the year commencing on May 1st.
- b. Public hearings are conducted to obtain citizen comments. At least one public hearing must be held no later than 10 days prior to final approval of the budget.
- c. Subsequent to the public hearings the budget is adopted by the board. The legal level of control at which expenditures may not legally exceed appropriations is at the fund level.

BASIS OF ACCOUNTING

The budget is prepared on the modified accrual basis of accounting.
